

## Heat-Self TTRTS

### Self-Limiting Heating Cable

Max. 240°C

For molding in concrete.  
Frost protection in concrete of driving  
and walking areas.

Thermoplast outer coating.

### Technical Data

Voltage	230 V ~ 50 Hz
Cable diameter	10.4 x 4.5 mm
Inside of cable protected against moist	Yes
Authorisation	CE
Cable type	Self-limiting heating cable
Ground shield	Tinned copper
Outer sheath	Thermoplast (-BO)
Max. temp. on cable	120 °C / 120 °C
Min. bending radius	25 mm
Warranty	3 years
Maks. cable length (depending on size)	38 m - 64 m
Min. installation temperature	-30 °C
Length tolerance	+/- 2 %

## Heat-Self TTRTS

Item	Type	Description	Power	Max temperature	
				On	Off
