

ETF 744/99

Temperature sensor

Technical data

Measurement	Temperature
Installation	Wall surface
IP Class	IP54
Temperature range (ambient)	-50/+70°C
Dimensions	H: 86 mm W: 45 mm D: 35 mm

Item	Description	IP class
52514777	Sensor ETF 744/99	IP54

Description

Temperature sensor

ETF-744/99 measures temperature and is normally used with the ETOR-55 sensor for gutter or the ETOG-55/56 sensors to ground surface.

It can detect the rapid fall in the air temperature and can therefore avoid icy areas.
