

Mirror Heating

Mirror heating keeps the mirror free from dew.

With the adhesive backing, it is easy to mount the mirror heating behind the mirror in the bathroom.

No dew on the mirror after the bath - less cleaning of the mirror.

Mirror heating can eg. be switched on with the light in the bathroom, or connected with a switch and turned on/off separately.

Technical Data

Voltage	230 V ~ 50 Hz
Thickness	1 mm (when connected 8 mm)
Insulation inner sheath	NA
Authorisation	CE, BEAB
Heat conductor	Heating foil
Insulation	II, Double insulated
Outer sheath	PVC
Max. temp. on cable	70 °C
Warranty	3 years
Resistance tolerance	- 5 % / + 10 %
