BRANDS

WITH A PURPOSE

HEATCOM
SMART HEATING SOLUTIONS

We offer a diverse range of products **designed to meet the needs of various markets**

Our brands series is designed to support a wide range of demands. We strive to ensure that our customers and users receive exceptional value, superior performance, and unmatched reliability from our products, service and solutions.

HEATCOM
SMART HEATING SOLUTIONS

Heatcom

- + Wide selection of solutions designed to meet the demands of every market
- + Large series of high-quality products for Residential, commercial, or industry
- + High reliability, efficiency & intelligent design

FLXHEAT
PROFESSIONAL HEATING

FLXHeat

- + Specialized products designed and developed for professionals and the professional market
- + Specific solutions, and services to meet their unique demands

HEATΣHOME
BY HEATCOM

HeatMyHome

- + Series of cost-effective underfloor heating mats and heating cables
- + Alternative without compromising on quality

PRIVATELABEL
YOUR BRAND. OUR SOLUTIONS

Private Label

- + Use your brand with our solutions, products, services and extended warranties
- + In collaboration we design and develop it a specific solution which suits your brand

SUCCESS THROUGH CLOSE COLLABORATION

Our concept and service which we continuously develop to give partners and users:

The best experience

UP TO **25**
Year warranty

+ 2.000
Product combinations

REFLECTOR

3 & 6 mm

No. Description

40101030	Reflector3 - 3 mm 500 x 1200 - packing of 6 m ²
40101060	Reflector6 - 6 mm 500 x 1200 - packing of 6 m ²

10
Year
warranty

- + Effective footstep soundproofing and thermal insulation for hard surfaces
- + Longer floor life due to levelling small irregularities of the sub-floor
- + High load resistance
- + Absorbs unevenness of the subfloor
- + Smooth surface – necessary for floating insulation of the floor
- + Very low water absorption
- + Approved as underfloor heating insulation

ALUCOVER

No. Description

40180700	AluCover 7 mm 2,88m ² /pk
----------	--------------------------------------

per m²

*Floor Cover

*Glue

4 mm top plate

3 mm bottom plate

*Not included

- + High quality MDF plate
- + Provides a very stable subfloor
- + High resistance to both static and dynamic loads

3 MM HEATING CABLE

Indoor ✓ Bathroom ✓

3MM HEATING CABLE 12 W/m

No.	Description	Watt
51180094	Heating cable Ø3 mm, 12 W/m - 9.4 m	120 W
51180153	Heating cable Ø3 mm, 12 W/m - 15.3 m	190 W
51180228	Heating cable Ø3 mm, 12 W/m - 22.8 m	290 W
51180297	Heating cable Ø3 mm, 12 W/m - 29.7 m	370 W
51180375	Heating cable Ø3 mm, 12 W/m - 37.5 m	470 W
51180438	Heating cable Ø3 mm, 12 W/m - 43.8 m	550 W
51180525	Heating cable Ø3 mm, 12 W/m - 52.5 m	650 W
51180671	Heating cable Ø3 mm, 12 W/m - 67.0 m	840 W
51180790	Heating cable Ø3 mm, 12 W/m - 79.0 m	980 W
51180870	Heating cable Ø3 mm, 12 W/m - 87.0 m	1090 W
51180980	Heating cable Ø3 mm, 12 W/m - 98.0 m	1230 W
51181100	Heating cable Ø3 mm, 12 W/m - 110.0 m	1370 W
51181300	Heating cable Ø3 mm, 12 W/m - 130.0 m	1630 W
51181420	Heating cable Ø3 mm, 12 W/m - 142.0 m	1770 W
51181530	Heating cable Ø3 mm, 12 W/m - 153.0 m	1920 W
51181741	Heating cable Ø3 mm, 12 W/m - 174.0 m	2170 W

*Can be used together with Decoupling membrane. See decoupling membrane on page 13.

Ideal for
EXISTING STABLE FLOORS

- + Flexible installation for complex room shapes and limited open areas
- + Suitable for longer runs in larger areas
- + Offers an individual effect per m² according the rooms degree of insulations.
- + Higher degree of flexibility

*Can be used together with Decoupling membrane. See decoupling membrane on page 13.

Ideal for
EXISTING STABLE FLOORS

- + All necessary components for an installation on existing stable floors – except the filler
- + Flexible installation for complex room shapes and limited open areas
- + Suitable for longer runs in larger areas
- + Offers an individual effect per m² according the rooms degree of insulations.
- + Higher degree of flexibility

DECOUPLING MEMBRANE

DECOUPLING MEMBRANE

1, 5 & 15m² Rolls

No. Description

40102001	Decoupling Membrane 1,0m ²
40102005	Decoupling Membrane 5,0m ²
40102015	Decoupling Membrane 15,0m ²

*Can be together with 3mm & 3,5mm heating cables. See page **10 – 12**.

- + Improves warmup time and energy efficiency of all underfloor heating systems
- + Features guard against sub floor movement and stress cracking
- + Combined decoupling membrane and cable carrier for speedy installation
- + Heating cables are protected from trowel work
- + Vary the cable spacing over the floor area to provide targeted heat where it's required
- + Speedy installation of heating cables without needing double-sided tape
- + No need for tapes or glue to hold down the heating cables
- + Simple to cut on-site to provide complete floor coverage
- + The membrane takes out movement in the floor to prevent tiles from cracking
- + Protects the floor covering from movement in three dimensions

- + Adhesive backing
- + Easy mounting

Mirror heating is a simple and effective solution for preventing condensation on bathroom mirrors

This technology

Involves installing a thin, electric heating pad behind the mirror that gently warms the surface of the glass, preventing moisture from accumulating. It also helps to prolong the lifespan of the mirror by reducing the risk of moisture damage.

PIPE ULTRA ON DRUM

No.	Description	Watt
40012013	Pipe Ultra 13 W/m – for drinking water	13 W

*See accessories on page 35.

Length: 250 – 500 m

- + Can be shortened to desired length on-site.
- + No issues regarding starting current as opposed to self-limiting cables and always the same output/power consumption no matter the ambient temperature.
- + Built-in cold cable can be directly connected to thermostat.
- + Easy connection to terminals.
- + Elastoprene – UV-resistant.
- + Temperature range from -40°C to +120°C.
- + Very flexible and robust and thus very easy to install. No reduction of total output over time.
- + High-quality materials provide for long service life.
- + Range of outputs from 15 W/m to 90 W

UNIVERSAL THERMOSTAT

All types of Heating Applications ✓ Optimized Operation ✓ Energy Saving ✓

3
Year
warranty

Thermostat

HC200 Uni

Universal. Plug & Play.

Plug it
directly into
the power
outlet

Connect it
directly to
the heating
source

Use it for all
types of heating
applications

- + Plug & Play operation
- + 4 programmable events – Time and temperature
- + Frost protection & heating control out of the box
- + Safe mode – In case of failure
- + Backlit 1,6" LCD display

SPECIFICATIONS

- 230Vac / 50-60Hz
- Max load 3000W
- IP class 44
- Schuko plug and socket
- Temperature sensor 3m
- +1 to +70 °C temperature range

FAN HEATERS

FAN HEATERS

FAN HEATER CASE

- + Fan heater in a trendy design
- + Metal cabinet and PTC heating element
- + 3 power settings : 800 W, 1000 W and 2000 W
- + Thermostat – ensures desired temperature level
- + Auto stop – stops automatically if it tips over

INDUSTRY FAN HEATER
2000W

- + Solid metal cabinet
- + Fan – 3 levels.
- + Thermostat – ensures desired temperature level
- + Practical handle
- + IP 24

INDUSTRY FAN HEATER
3000W

- + Solid metal cabinet
- + Fan – 3 levels.
- + Thermostat – ensures desired temperature level
- + Practical handle
- + IP 24

INDUSTRY FAN HEATER
9000W

- + Solid metal cabinet
- + Fan – 3 levels.
- + Thermostat – ensures desired temperature level
- + Practical handle
- + IP 24

CORPORATE SOCIAL RESPONSIBILITY

SUSTAINABILITY

Everything we do, we do because we believe in being part of the solution. Heatcom Corporation A/S design, manufacture and market electric heating solutions based on heating cables. We take responsibility by creating **SMART HEATING SOLUTIONS**, constantly innovate on our product portfolio and add new innovative solutions. We build partnerships and focus on collaboration as an important part for us to create value for our partners, ourselves, our planet and people. We always aim to operate a successful, responsible and profitable business with economic growth. Creating a good working environment is at the same time part of our core values.

Primary

Affected

Production, Facilities & Suppliers

- Our new production facility and domicile is living up to the newest standards within selection of materials as well as sustainability have played a major role in all interior decoration.
- Green energy is our primary source of propellant. This is secured through an individual agreement with our energy provider.
- In order to minimize energy consumption, we use LED lights, sensors and other control technologies in our facilities and constantly monitor our operation.
- We require social and environmental responsibility from all our suppliers.
- We constantly focus on optimizing transportation by working with suppliers on optimizing each transport – enabling as little carbon monoxide as possible.

Primary

Affected

Products

- We strive to design products for the longest possible lifetime. Enabling us to extend our offer up to 25-year guarantee.
- Our products are provided with a label that they should be recycled by the end of their life cycle.
- Our solutions provides comfort, ensuring a healthy environment and secure buildings and water supply against snow and frost damages.
- We aim to design products that provides the best possible performance with the lowest possible energy consumption.
- Our products are designed to live up to the required standards and certificates in our product category. To name a few, e.g., from Intertec, SEMKO, BEAB and Ecolot20.
- To make our product packaging recyclable and environmentally friendly a project have been started and will continue in the years to come.
- We are in a constant process of minimizing our paper consumption for product documentation, manuals, guides, brochures etc. This material is instead offered digitally to our customers.

Primary

Affected

Responsible business

- We are proud to have a workplace that welcomes all people with the right qualifications regardless of gender, race, religion, disability, sexual orientation, and age.
- Through workshops, working committees and social events, we ensure that our common values are constantly nourished.
- We believe that creating a good working environment is an important element in building a successful and profitable business.
- Among others we collaborate with the Working Environment Authority, interior architects, factory inspectors to be able to offer our employees facilities that ensure a healthy and safe working environment.

Heatcom.dk

A modern, dark-colored industrial building with large glass windows and a prominent entrance. The building is illuminated by warm interior lights and exterior wall sconces. The sky is a mix of orange, pink, and blue, reflecting in the glass. The entrance features a wooden slat frame and large glass doors. The company name 'HEATCOM' is displayed in large, illuminated letters on the upper right side of the building, with 'SMART HEATING SOLUTIONS' written below it in smaller letters.
